## **First ESB – Fellows Workshop „Wissenschaftsfreiheit“**

Einstein Stiftung Berlin & Humboldt – Universität zu Berlin

**30.09.2019 | 9 am – 4:30 pm | Senatsaal, Humboldt-Universität zu Berlin**

The Einstein Stiftung Berlin (ESB), with its Academic Freedom Programme, invited researchers facing repressions at their home universities to conduct research in Berlin for up to two years to broaden their international networks and enhance their careers as excellent scientists and researchers. With this programme, Berlin has become the host city for 23 scholars from international and multidisciplinary backgrounds.

On September 30, 2019, we will bring together these researchers at the first ESB – Fellows Workshop at Humboldt-Universität zu Berlin (HU-Berlin). The fellows and their hosts will exchange ideas, address the challenges of being a new researcher in Berlin and explore their future potential. Together with academic mentors and representatives of the ESB, we will have a chance to exchange experiences with the Programme “Wissenschaftsfreiheit”, work on open questions and contribute to the future of the programme. At the same time, we will knit ties with other Fellow-Mentor-Teams to learn from successful concepts and structures on how to integrate new colleagues in a productive research environment with a perspective in German academia.

Venue: Senatssaal, Humboldt-Universität zu Berlin  
Unter den Linden 6, 10117 Berlin

Organizer: Einstein Stiftung Berlin / Humboldt- Universität zu Berlin

Contact: Anne Berger: [anne.berger@hu-berlin.de](mailto:anne.berger@hu-berlin.de)
